**Price Table Explanation:**

SenSoft’s Catalog Upload Services are available for anyone with a GSA or VA contract that needs to upload information to the GSA Advantage web site [www.gsaadvantage.gov](http://www.gsaadvantage.gov)

**Text File (terms and conditions, DOC or PDF)**

GSA and VA refer to this catalog type as a “Text” file, as a Terms and Conditions document, as Labor Prices, and sometimes as the equivalent of your paper catalog. Buyers can download the PDF and view your contract terms, awarded SINs, shipping terms, warranties, labor prices, etc. from the eLibrary site and GSA Advantage.

**Product Catalogs (also known as Data and spreadsheet based catalogs)**

Product catalogs also have many names. GSA sometimes refers to this as data, or as your SIP price list. It is your Authorized Price List and is based on an ordinary price list spreadsheet and buyers can “click purchase” items through the GSA Advantage web site [www.gsaadvantage.gov](http://www.gsaadvantage.gov) This is also how you get items on the [GSA Apps.Gov](http://GSA Apps.Gov) web site.

**Additional Services for Product Contracts**

You can upload a Text File (DOC or PDF file) with your contract Terms and Conditions, and maybe prices for labor hours or services, to accompany your product catalog. This is required by some Contracting Officers and recommended by most. There is an additional charge except for unlimited annual upload customers.

**Note: DoD EMALL and GSA are discussing new rules for updating the EMALL, and we may not be able to complete any uploads for you until these issues are resolved.**
