(1) Retail Service: One-time upload fee - pay as you go service. (2) 3 Upload Annual Subscription: Based on size of full catalog and 3 uploads or 12 months whichever comes first. (3) Unlimited Upload Annual Subscription: Based on size of full catalog and unlimited uploads for 12 months. (4) Valet Service Fee: Email your files and we process the catalog. Upload Services do not include any file or data manipulation. Please contact us for Catalog Preparation Services.			

Price Table Explanation:

SenSoft's Catalog Upload Services are available for contractors who hold Service and/or Product contracts.

Administrative Changes

When you need to change: point of contact information, company location, authorized negotiators, telephone and/or fax numbers, email and/or website addresses.

Service Contracts (Labor only)

If you have a service-related contract such as MOBIS, focus on the Service Contracts section of the price table. Next, decide between the three service levels. If you need only 1 upload for the next 12 months, go with the Text File at Retail price. If you will need even 1 more upload, then the logical choice is the 3 Upload Annual Subscription. The attractive Unlimited Upload option lets you upload as many catalog changes as you wish. The next decision you will have to make is whether to use our Do-It-Yourself web tools to upload your catalogs or to tap into our Valet Service where we complete the SenSoft online form on your behalf. And finally, you may need to have us upload your catalog on the DOD EMALL website as well as on the GSA Advantage! website.

Product Contracts

If you have a Product-based contract, focus on the Product Contracts section of the price table. Next, select the row with the number of unique products, accessories, and options in your full catalog. Decide between the three service levels. If you need only 1 upload for the next 12 months, go with the Retail price that matches your number of line items. If you will need even 1 more upload, then the logical choice is the 3 Upload Annual Subscription. The attractive Unlimited Upload option lets you upload as many catalog changes as you wish. There is no additional fee to process photos with your catalog.

Additional Services for Product Contracts

You can upload a Text File to accompany your product catalog (row A). You can use our Valet Service, rather than our Do-It-Yourself web tools; we will complete the SenSoft online form on your behalf (row B). And finally, you may need to have us upload your catalog on the DOD EMALL website, as well as on the GSA Advantage! website (row C).
